PITTSBURGH, Oct. 20.—After making three attempts to board President Wilson's automobile as it was returning to Union station this afternoon, Richard Cullen, 22, a machinist, was arrested by secret service men, who frustrated his attempts to enter the president's machine. When questioned at police headquarters, where he is being held as a suspicious person, Cullen said he was dissatisfied with the president's foreign policy anent the European war. A small bag Cullen was carrying contained a bottle of fluid, the nature of which the police could not determine. City chemists will examine it. The bag also contained a large knife.

After being examined by a physician this afternoon Cullen was sent to the insane ward of the county home at Marshalls for further observation.

PITTSBURGH, Pa., Oct. 20.—Conspicuous in the large crowd that cheered President Wilson and Mrs. Wilson, who are en route from Chicago to Shadow Lawn on their arrival at Union Station, at 11:40 today was William Jennings Bryan.

Beaming happily, the Commoner, who stopped off en route to Johnstown, Pa., to meet the president, was one of the first to greet the president. Mr. Bryan took another train out of the city shortly after the president's arrival.

The welcome accorded President Wilson was a most cordial one. A big crowd had gathered at the station and he was heartily cheered.

Motors were waiting and the president and his party were taken for a ride through Oakland Park and the downtown section of the city. A large number of women were in the crowd at the depot. Above the cabstand at Union Station hundreds of railroad employes had gathered when the president appeared they shouted:

"Hello, Woody." And Mr. Wilson smilingly waved his hat in acknowledgment.

Classes of the University of Pittsburgh and Carnegie Institute of Technology were dismissed in order that the students might greet the president as he sped through the Schenley district. The president spoke briefly to the Tech students. Teachers and public school pupils also greeted the president on his way downtown. Returning to the station a reception committee, composed of 150 prominent democrats, republicans and progressives greeted the president.

Texas Crowd Hears Interpretation of  
Cowardice in Administration.

AMARILLO, Texas, Oct. 20.—Bitterly attacking the administration's foreign policy at every stop, Colonel Theodore Roosevelt swirled through the southwest today on his no-pussy-footing trip. He will reach Phoenix, Ariz., tomorrow.

"The nation that is too proud to fight for justice, will not get justice from those who are not too proud to fight," said the colonel speaking at Emporia, Kansas, in a swirling snow storm.

The colonel became sarcastic when he referred to the phrase: "He kept us out of war."

"If George Washington had kept us out of war there would have been no United States, and if Abraham Lincoln had kept us out of war there would have been no free Kansas," he declared.

ALLIANCE, O., Oct. 20.—The "dry special" received a wet weather reception here, the rain pouring in torrents as former Governor Hanley and Ira Landrith, prohibition candidates for president and vice president, spoke at the Pennsylvania station to about 200 people. EAST ST. LOUIS, Ill., Oct. 20.—One tentacle of what is denounced as the most widespread attempt at wholesale vote frauds ever plotted was brought to light here.

Sensational developments are expected. How far up the trail will lead can only be guessed. For weeks investigations have been quietly going on. At the same time the federal department of justice has been working secretly in other cities.

**Illinois Spots Suspected.**

In Illinois the spots under scrutiny are wards in Chicago, Danville, Cairo and here. Whether attempts will be made to carry through projected frauds on election day defying prosecutions threatened is to be seen. Enough, it is said, has been uncovered in investigations brought to a climax by Tuesday's registrations to disclose plans.

In Indiana a "deal" by friends of Harry New, is reported to the detriment of Senator John W. Kern, democratic candidate for re-election.

Democratic leaders charge the work of the two registration days has been the preparation of a framework of false votes to be harvested on election day. The plan is said to have been so similar in the different cities as to give basis for a belief that it is a part of a far-reaching effort.

**Negro Voters Used.**

A large floating negro vote is located in the various spots under scrutiny. Most of these have come recently from the south. They are new voters, anxious to exercise their suffrage for the first time. Investigations indicate they have been taken in hand by wiser heads and coached in details of getting their names on registry books in most instances in violation of the election laws.

The methods outlined for running up a large vote in defiance of the law are:

Registry by dummies of names from old polling lists, despite that the householders have moved months ago.

Registry of men and women who have lived in the state only a few months, committing perjury by swearing to a legal residence of one year in the state.

Promising of indictments in money for votes next month to men

## SECRETARY IN CABINET, HOUSTON, HERE TODAY, LOOKS FOR A LANDSLIDE

By David W. Bowman.

"The only thing I have never seen anything like the turning of voters toward the president," is the characterization of the present campaign made at the Normal this morning by David Franklin Houston, secretary of agriculture in the Wilson cabinet.

"Everywhere I go I find that there appears to be a tide toward Wilson Republicans as well as independents and democrats are lining up for him, and I wouldn't be surprised to see the record majorities, surpassed in several of the states."

Secretary Houston is covering the entire country in his tour, and has made careful study of the situations in the states which he has thus far covered.

"In four towns in which I spoke in Connecticut I was assured that that state would go for the president by a substantial majority. New York is all right, and the democrats there are elated over their prospects. There is even great hope for Pennsylvania swinging into line, for outside of the protection centers, Pittsburgh and Philadelphia, Penrose is beginning to waver."

"At Bridgeport, Connecticut, some one took a straw vote of a public gathering at which 257 men were in attendance. Four were non-committal, and of the remaining 253 Mr. Wilson was the choice of 251. I don't know whether the other pair would be for Hughes, Hanley or Benson."

"I spoke in Walton, New York, last week to an audience which was about half of republican antecedents. After the meeting at least ten republicans came forward and assured me they were for the president and knew of many more republicans of the same frame of mind. They explained that the president's foreign policy was successful, and that they weren't disposed to inquire into the detailed methods—the thing worked out all right and they don't care how it had been done. Then they liked the domestic policy, but a few went so far as to state that they would have been for Hughes if he had passed a plaster over his mouth the day he was nominated."

"Do you find that the political meetings of this campaign are large and enthusiastic?" Secretary Houston was asked.

"Both large and enthusiastic," he replied. "Last night I spoke at Bucyrus and found that the meeting was 'remarkable for the interest taken. The weather was bad, but that didn't deter the voters in the least. The same was true at Wooster and other Ohio points where I have spoken."

In connection with Ohio, Secretary Houston remarked: "Your new cabinet officer has made a wonderful impression in Washington. Mr. Baker took charge on the same day that the Mexican bandits crossed the border at Columbus, New Mexico, and has handled a difficult situation very well. He is considered one of the big men of the administration and Ohio should be proud of him, as

well as of your new justice of the supreme court, Mr. Clarke."

Secretary Houston is accompanied by John Henry Newman, of Fletcher, Miami county. Remember John Henry? He was a candidate for secretary of state in the August primaries, but some commuters kept his name off the ballots in enough counties to affect the result, he believes. "No, I'm not peeved," he states. "I'm out for the whole ticket just like I always was. In the face of Woodrow Wilson how could any man get peeved?"

Newman declares that Miami county, the republican stronghold for years, will go for the democratic ticket this year. "We carried it for Harmon, but night few democrats ever got through there. The candidates are optimistic and the republicans are on the run. The presidential and gubernatorial races are understood, the senatorial contest will favor Pomeroy and Ben Welty will make a fine showing."

Newman is a well-known character about Ohio, and has been for years. He was state librarian under the Cox administration. His remarks are nothing if not original. At Bucyrus last night he said that "judging from Roosevelt's treatment of the progressives, if he had lived in apostolic times Judas' name would never have appeared in the Bible. Roosevelt would have beaten Judas to it and betrayed the Saviour. Judas got a piece of money out of it—Roosevelt would have done it for nothing."

Secretary Houston and Newman were in Lima only a short time, changing here for Defiance. They left at 10:35. Attorney Don C. Henderson joined the party at Lima to attend the evening meeting at Defiance.

Violent fighting was today reported from every theater of war except the Italian. The long sustained offensive of the Serbians in Macedonia is apparently on the threshold of bringing them important results. The Serbs that captured Brod have advanced along the Tchernia river towards Monastir, overcoming all resistance. A battle has been fought on the Tchernia in which the Bulgars lost very heavily and left many prisoners and guns in the hands of the victors.

In France the Germans have recaptured some of the positions they had lost to the British. Great artillery duels were in progress all night despite rainy, foggy weather. Berlin reported the destruction of three British "tanks" in the allies' latest attack.

Furious Russian attacks, some of them delivered in a snow storm in the Carpathians, have been repulsed on the eastern front by the Austro-German armies.

Strong Russo-Rumanian attacks are being delivered against the German allies in Transylvania and Dobruja. An unconfirmed despatch from Rome says that General von Falkenhayn, whose armies have been trying to invade Rumania, has been forced by a wound to relinquish his command. It is reported in Rome that the Austro-Hungarians are making preparations for another tremendous offensive against the Italians. An unprecedented number of heavy guns is being massed, it is said.

Further disorders are reported from Athens, where hostile demonstrations have been made before the Italian, French and British embassies. Conflicting despatches were received as to the situation in the Greek capital. One telegram stated that Greek troops were co-operating with the Italian and French forces and that Greek cavalrymen had dispersed mobs. Another stated that the Greek authorities are giving no assistance in keeping down disorder.

## MACHINE GUNS TRAINED ON STREETS OF ATHENS

LONDON, Oct. 20.—Machine guns have been mounted on the streets of Athens to guard the king's palace.

The Athens correspondent of the Parisian telegraphs that the rioting is due to the work of agents of Baron Von Schenk, the former head of the pro-German propaganda. He added that belief exists in Greece that, if the Lambrinos cabinet is unable to maintain order, it will retire.

Francis Elliott, the British minister to Greece, has served a warning from his government upon King Constantine.

The Echo's Athens correspondent wires: "American Minister Droppers has made the following reply to Greeks who presented a petition asking the aid of the United States: 'The United States will not intervene in European matters.'"

# EFFICIENCY WEEK AT LOCAL Y. M. C. A. IS MARKED BY DINNER

**A. L. Garford Talks Plainly to Young Men Who Are Ambitious.**

**State Secretary A. H. Lichty is One of the Honor Guests.**

The man who does his best by his work every day and by every one with whom he comes in contact, lets the future take care of itself and lies his weary head and tired bed on his pillow at night, content that he has earned a night's repose, is the young man who before he becomes very old is going to be able to write his check for many thousands of dollars, according to the talk given last night by A. L. Garford of Elyria, president of the Young Men's Christian association of that city, in addressing men assembled at the Lima Y. M. C. A. at the dinner held at the close of Efficiency week. Two hundred and fifty men enjoyed the delicious menu and afterward the speeches given.

Mr. Garford begged young men to pay little attention to the clock. He said the young man who worked with his eye on the clock, always lost part of the time, because he was ready to throw down his work five or ten minutes or even a half hour before quitting time. "Build for the future and be prepared to take the place of the man higher up" was one of his cheerful suggestions.

He congratulated the young men who had cast his lot with the Y. M. C. A. and declared that the young man who follows its precepts and teachings can not go far wrong. He said that every position in life today demanded keen, well-trained intellect and there was no place for the young man whose brain was befuddled with strong drink, whose activities were dulled by cigarettes or whose strength was lacking because of a night of dissipation. "The clean, healthy young man is he who gets up in business," Mr. Garford declared.

R. J. Plate presided at the dinner and spoke of the object of the gathering. He said that the dinner was a complimentary arrangement for the new men who have joined the Y. M. C. A. during Efficiency week and the coming-together was for the purpose of getting acquainted and understanding each other better.

Mr. Plate called upon Elmer McClain, to whom he paid a neat tribute when he stated that to Mr. McClain was due the credit for the increase in membership which has so pleased every Y. M. C. A. member. Mr. McClain was in charge of this branch of the work and aided A. H. Lichty, state secretary, who has been working in Lima to accomplish these big things. Mr. Lichty spoke on the practical details of Y. M. C. A. work.

# WILLIS NOT TO RETRACT?

Secretary Tipton Says Governor Will Not Yield to O'Dwyer.

COLUMBUS, Oct. 20.—"So far as I know, Governor Willis will not retract his charge. From information at hand, he could rather repeat it with emphasis." This statement was made today by Forest Tipton, secretary to Governor Willis, relative to the demand made late yesterday by John A. O'Dwyer, of Toledo, that the governor retract his charge that O'Dwyer, as a member of the Lucas county liquor licensing board, two years ago was "holding up licenses and acting as bagman in the collection of campaign contributions." It was intimated here today that O'Dwyer will sue Willis for alleged libel.

# FINLEY OPTIMISTIC.

Chairman Says Wilson Will Carry Ohio by 150,000.

NEW YORK, Oct. 20.—W. L. Finley, democratic state chairman of Ohio, predicted at democratic headquarters today that President Wilson would carry Ohio by 150,000 majority. He also charged the republicans with spending big sums of money in Ohio. This was denied by William R. Wilcox, national republican chairman, who said:

"I wish to say emphatically that up to the present time the republicans have spent less than \$5,000 in Ohio for advertising, traveling and all other incidentals of the campaign."

West Virginia, Kentucky, Wisconsin, Indiana, Ohio and possibly Illinois will be carried by President Wilson, according to U. S. Senator W. A. Smith of Maryland. He based his statement upon information secured from Vice President Marshall. The only two doubtful states, the senator said, were New York and Maryland.

# THE IDLER

Prof. Fred. Calvert will conduct a service of song at the evening meeting at Market Street Presbyterian church on Sunday.

Mr. and Mrs. Lawrence Braun, Mrs. L. Buley, Mrs. Grauman and Mr. and Mrs. Al. Caljacob attended the funeral of Mrs. Catherine Hepling, held at the Catholic church in Wapakoneta, yesterday. They remained for a short visit with relatives there. Mrs. Hepling was a sister to Mr. Braun.

Mrs. Harry MacDonald of 554 West Spring street, was removed to the city hospital this morning in the Eckert invalid coach. Mrs. MacDonald is the well-known teacher of music.

M. J. Morris was removed from 117 West Spring street to the city hospital this morning, in the Williams and Davis invalid coach.

Assistant Secretary of State Wm. F. Guyton came to Lima from Columbus yesterday to register.

Mrs. H. F. Vorkamp is in Cincinnati at the bedside of her mother, Mrs. Charles Julius Fleischman, who is critically ill.

Frank T. Brownstead, chief examiner of steam engineers of Ohio, formerly located in Lima but now with offices in Columbus, is in Lima to register.

# BIDS RECEIVED BY BOARD OF CONTROL

Bids were received today for the relaying of a sewer on Wendock avenue and the construction of sewers on Charles street and Leland and Hazel avenues. Bids for the construction of the retaining wall 200 feet along the north side of the bridge across the stone quarry near the intersection of Hawg creek and East North street were also received.

For the past nine months this bridge has been condemned. According to Service Director Metheny the bridge will be done away with entirely as soon as the retaining wall is completed. However this cannot be done until the wall is finished and a fill is made.

# CHIEF SOFT PEDALS EARLY HALLOWEEN

Police Chief McKinney issued an advance warning to premature Halloween celebrators today, informing guilty persons that they will be severely dealt with if caught destroying property. He states that even the lesser sports indulged in on this occasion will not be tolerated until Halloween, on October 31.

McKinney is of the opinion that there will be sufficient amusement furnished by several civic organizations to furnish plenty of entertainment that evening, without the necessity of resorting to destructive pleasure as heretofore practiced by young people.

# JURY RETURNS VERDICT.

The jury which yesterday heard the case of the State of Ohio against Elmer Augsburg, retired at 11 o'clock today. Augsburg, on the stand yesterday, refuted the charges made by his wife that he told her to leave home. He said he tried to find work, but was unable to do so.

A verdict of guilty of abandonment as charged in the indictment was returned at 2:30 o'clock.

# CORN HITS DOLLAR MARK; LAST IN 1892

# SENTENCE COLORED REVOLVER CARRIER

Jeff Simpson, 26, negro, arrested yesterday on a charge of flourishing a loaded revolver in the Boone saloon, South Union street, was arraigned in criminal court this morning and pleaded guilty to the charge. He was fined \$25 and costs and sentenced to thirty days in the Toledo work house.

It is alleged that Simpson went into the above mentioned saloon and threatened to shoot up the place. He was grabbed and thrown out by Clark Oliver, the proprietor. At police headquarters, it is said he put up a fight with officers when they attempted to put him in a cell. After a short hesitation, Officer Wallace succeeded in landing his prisoner.

# BRYAN SEES VICTORY FOR WILSON IN WEST

PITTSBURGH, Pa., Oct. 20.—William Jennings Bryan, former secretary of state, while sitting at the Fort Pitt hotel today for the arrival of President Wilson, predicted the president will carry all the mountain states of the west, probably gain four United States senators for the democratic party, and declared that the tide running to Wilson appeared to him growing stronger day by day.

Closing the fifth day of a seven weeks campaign he is making for the national ticket, Colonel Bryan said he will have visited 19 states. Starting today, he will campaign in Pennsylvania, Ohio, Michigan, Wisconsin and Nebraska, closing his speechmaking in his home state of Maryland.

average about 100 bushels to the acre.

Since Kerwin is one of the largest raisers of stock in the county it is likely that most of the production of the 500 acres will be fed to stock. During the fall and winter the stock is fattened and prepared for spring market.

Probably no farmer in this part of the state has spent so much money in improving the productivity of their farms as Kerwin. Since acquiring the farm a few years ago he has expended a total of \$50,000 constructing the ditches to obtain the proper drainage.

The career of this progressive farmer is worthy of mention. Facing the world with practically no funds, but with goodly share of pluck he soon acquired a piece of land in Auglaize. Since then he has added to it by purchasing surrounding tracts until he now owns one of the largest farms in the state.

and women who register fraudulently.

East St. Louis has a negro population of more than 3,500. Of these about 2,000 are said to have come the last four months.

Want All to Vote.

The plan being followed is said to put all of them on the registration lists so they can vote next month despite that one year's residence in the state is required.

"In one house I found four negroes who came here three months ago," one investigator reported. "The landlady said she knew they had not lived here long enough to vote, but that a white man had come around and fixed it up for them, so they could register." Similar reports were made from other places.

Other reports showed names recorded from vacant lots and from houses not been occupied for months; still others were names of persons who have moved and have been forgotten. These last, it is said, were put on the books by "dummies" sent to the polls. Barber shops, saloons and other localities which have no sleeping quarters also appear as residences.

Similar Methods in Cairo.

In Cairo there is the same nomadic river population as in East St. Louis and similar methods are alleged to have been followed. Danville is said to have an equally large percentage of happy-go-lucky voters, but their stay in the mines of that section of the state is said to be more permanent than along the river.

Colonization of colored voters in the second ward, Chicago, in preparation for the November elections is said to have been discovered by investigators. Details of the report were not made public, but it is admitted that in one instance 100 persons were registered from a single house.

# MINISTERS DEBATE SABBATH BREAKING

Speakers Berate Sunday Ball Games, Movies and Amusements.

Moving picture houses operating on Sunday, Sunday baseball and the indulgence of amusements on Saturday night to create physically ill bodies, were strongly condemned in the discussion following the paper, "The Proper Observance of the Lord's Day" at the session of the first English district of the joint synod of Lutheran churches, in session at Zion Lutheran church, today. Among the prominent ministers who took part in the discussion were Dr. C. H. Schuette of Columbus, president of the joint synod of Ohio, the Rev. G. J. Troutman of Circleville and the Rev. Paul H. Wilson of Detroit.

The paper was read by the Rev. C. A. D. Freseman of Akron. "By observing Sunday, the rest of the week will take care of itself", the ministers argued. "The way in which the Sabbath is spent reflects through the whole week and helps or hinders the soul," they argued.

Moving picture houses operating on Sunday seek to work in competition with the preaching of God's word, the ministers declared. The tumult and noise arising from crowds gathered to witness Sunday baseball seeks to destroy the word sown at the Sunday morning service by the minister, acclaimed those who took part in the discussions. The laws of the state should be invoked in behalf of the community, the ministers agreed, to see that no Sunday baseball is played in the community.

One minister declared he had no patience with people who claim their work during the week and on Saturday night caused them to be so tired they declared they could not arise in time to attend church services Sunday morning. He believed the devil was working there.

"If there was a call to go to some summer resort or place of amusement, say two hundred miles away, they would not fail to arise to go," he declared.

The Rev. C. W. Pfeuffer of Columbus, as treasurer, gave his report this morning. This afternoon was taken up largely by business. The committee on parochial and financial reports was heard.

The sermon tonight will be given by the Rev. Carl Fischer of Columbus, and will be preparatory to the communion, to be celebrated on Sunday.

CHICAGO—Ole Nelson, hospital superintendent, announced his marriage last summer to a nurse. "I fell in love with her wonderful eyes," he said, then admitted he did not know their color.

(Continued from page one.)

average about 100 bushels to the acre.

Since Kerwin is one of the largest raisers of stock in the county it is likely that most of the production of the 500 acres will be fed to stock. During the fall and winter the stock is fattened and prepared for spring market.

Probably no farmer in this part of the state has spent so much money in improving the productivity of their farms as Kerwin. Since acquiring the farm a few years ago he has expended a total of \$50,000 constructing the ditches to obtain the proper drainage.

The career of this progressive farmer is worthy of mention. Facing the world with practically no funds, but with goodly share of pluck he soon acquired a piece of land in Auglaize. Since then he has added to it by purchasing surrounding tracts until he now owns one of the largest farms in the state.

# RESCUER DIES AT HIS WORK IN MINE

FAIRMONT, W. Va., Oct. 20.—The Jamison mine disaster which had already cost ten lives, claims another victim this morning when L. M. Jones, 33, of Columbus, O., in charge of the government mine rescue squad from Pittsburgh, was asphyxiated. Seven members of his party were overcome but were revived after being brought to the surface by a second rescue party this morning.

The body of M. W. Allison, chief engineer of the mine, was brought to the surface today. Three other bodies have been located and six more are known to be dead.

BREAD LOAF WEIGHS LESS DECLARES WASHINGTON.

A nation-wide survey of the bread situation, conducted by the bureau of labor statistics has developed the fact that the startling changes the consumer has faced more often have been decreases in weight rather than increases in price.

Reports from leading bakers of 45 principal industrial cities revealed that the retail price of bread on September 15, was 11 per cent higher than on May 15.

Advances in the cost of flour, together with increases in other ingredients, has caused not only numerous reductions in bread weights, and advances in price, but many bakers have taken other means of meeting the cost advances, the bureau ascertained. Some have discontinued their wholesale business and now conduct only a retail business. Some have eliminated popular brands and have substituted others which are presumably cheaper. Wheat and flour were respectively 34 per cent and 37 per cent higher in September than in May.

CHARLESTON, W. Va.—E. L. Whittier is an artist. It cost the lives of 11 cows to prove it. He painted a sign representing a huge watermelon. It was so natural that the cows licked the paint off and all died of poisoning.

CONNEAUT—J. H. Reed, president of the Bessemer and Lake Erie railroad, today denied emphatically rumors that his road was planning to abandon the docks at Conneaut and move them to Erie, a rumor which had gained much prominence in that city.

# COURT OF APPEALS LOCATES AN ERROR

The court of appeals today decided there was error in the case of William H. Harper, as administrator of the estate of Albert Buggie, against the Lima Locomotive corporation. The decision was given by Judge Robinson, Judge Phil. M. Crow dissenting. The verdict of the court of common pleas in favor of damages for the estate of Buggie, was sustained. Buggie received injuries at the corporation's plant from which he died.

Error was found in the case of R. T. Kendall against Elizabeth R. Smith and others. The case concerned the division of property and money. The higher court decided judgment was contrary to the evidence.

# DAYTON HAS A NEW WAY TO TREAT COLDS

They Just Rub It on—Nothing to Swallow.

# INHALED AS A VAPOR ABSORBED THRU SKIN

Everyone knows that taking too much medicine is harmful, particularly to children. Since 1911 wise Dayton mothers have been using the Southern method of treating cold troubles externally. This application is called Vick's VapoRub Salve, and you just rub it on over throat and chest, covering with a warm flannel cloth. The body warmth releases soothing vapors that give quick relief. Mrs. Maude Gochring, 113 Dudley street—

"VapoRub cured my grandson of bronchial pneumonia. It is the best thing we have ever tried for colds."

Mr. William Sellman, 26 Munna avenue—

"Vick's VapoRub is particularly useful for croupy coughs in children. I have used it myself for catarrhal bronchitis, and found almost instant relief."

## TWO JUDGES

Every citizen of the state of Ohio should interest himself at the coming election in the selection of judges for the supreme court of Ohio. In the past, electors of this state have been too neglectful of their duty in this regard. The rights and liberties of every citizen are more or less in the hands of this court, which has final jurisdiction to construe the supreme organic law of the state. Narrow technical interpretations of the constitution tend directly to interfere with the individual in all walks of life. The present supreme court has been zealous to use every effort to see that every man is accorded speedy and unerring justice, and this court has been made an instrument to protect him. Its decisions are referred to, by every state in the union, and are followed by the highest courts all over the United States. The high recognition accorded these decisions has been due in no small measure to Judges Donahue and Johnson whose names are now before the electors of this state as candidates for re-election. No good citizen should neglect to cast his ballot for them.

It must be remembered that the judicial ticket is separate from the regular party ticket, and that in order to vote for these two judges, it is necessary that the "X" be placed to the left of their names. That this may not be overlooked, we suggest to the voters that they prepare their judicial ticket immediately upon entering the voting booth, so that they will be sure to vote for these two men. It is not a question of politics, but an altogether more important matter. No man, whether he be a Democrat or a Republican, can afford to have these candidates defeated.

It is a noteworthy fact, that in all of the history of the judiciary in Ohio, the names of two Democrats have ever stood prominent before the eyes of every lover of judicial honesty, personal integrity and legal ability. We are proud of the fact that these two men were both members of the Democratic party. We refer to Allen G. Thurman and Rufus P. Ramsey.

was adopted, it became the duty of the supreme court of Ohio to construe that great instrument, and of all the judges of the supreme court, the opinions of Judges Thurman and Ramsey stand out as great landmarks of constitutional law. Their decisions are quoted with approval throughout the union. The broad and liberal spirit in which they construed this instrument made an era in constitutional interpretation.

In 1912 this constitution was vitally changed by the people in many particulars, and the colossal work of interpretation passed into the hands of the present supreme court. It proved to be the worthy successor of Judge Ramsey and Judge Thurman. In all of the intricate and painstaking work the keen analytical and constructive minds, and stalwart integrity of Judge Johnson and Judge Donahue were prominent. On them fell the mantle of Thurman and Ramsey, and they have magnificently upheld the high standards laid down by these masters of them that knew.

So well and faithfully have they fulfilled and performed the great trust reposed in them, that it would be a great political blunder if they were not re-elected. Every citizen who has pride in the supreme court of this state should put an "X" to the left of the names of James G. Johnson and Maurice H. Donahue, the Democratic candidates for re-election to the supreme court.

## REGISTER!

The exercise of the electoral franchise is the highest function of citizenship. We clamor a great deal about our constitutional rights but never realize that the best way to secure them is by fulfilling our constitutional obligations. In other words, the best way to insure free government is by getting into the habit of voting.

You cannot vote unless you register. You will have two more opportunities—until nine o'clock this evening and tomorrow between eight in the morning and two in the afternoon and between four in the afternoon and nine at night. In cities of Lima's population registration is required every four years, and you cannot vote in November unless you register.

Don't be a Charles Frazier Hughes. Don't let it be said of you that you don't vote. His Be-whiskered Dodge-ship hasn't fulfilled since 1910 the civic obligation of participating in the elections. Don't be that sort of a citizen, for that is the poorest class. REGISTER!

The Congressional Record fails to show that our accidental congressman, J. Ed Russell of Sidney, has ever addressed the chair or sought to speak on the floor of the house of representatives. At \$1500 a year, silence is golden. "If representative in congress" is merely a title in some cases.

The old-fashioned voter who fell for the "bloody-lust" clamor that a Democratic administration meant another Civil war now has a son who falls for the bond and buncombe that the South controls the big committees in congress and is running the nation.

An ancient Indian custom demanded that the braves refrain from naming their papooses until they had done something. Judging from the result of the Whelan case one is tempted to wonder whether or not Ed Bank has in drum blood named his.

Perhaps the Republican county committee is importing Cottrill, the negro orator to explain why Ralph W. Tyler wasn't elected delegate-at-large to the Chicago convention.

GOOD EVENING. Here's a tip to you. Will it snow before December 1st? Will it snow before December 1st?

## PUBLIC FORUM

## VITIPLICATION NOT ARGUMENT

To the Editor of The Times-Democrat:  
Early in the morning Mr. Hughes charged that President Wilson imputed to the nation factories in this country. There is not a citizen of the most ordinary intelligence who does not know that Mr. Hughes uttered a gross falsehood, and he knew it was false. It was an invitation to his followers to make a campaign of abuse and absolute perversion of facts, which was promptly accepted, and much raking has been on the part of republican leaders, their chief occupation.

If the American voters accept the slimy assertions of partisan republican leaders as facts they should vote for Hughes.  
He is the man whom they take as a model of political perfection. He gave an example of all that is abhorrent in political discussion.

If, however, the voters of the United States condemn such methods they should support Woodrow Wilson who has never fallen below the plane of honor in denouncing issues of the campaign.  
It is to be deplored that abuse and falsehoods are substituted for calm and decent discussion of political issues, which so intimately concern 100,000,000 people.

## VIEWS OF MEN OF AFFAIRS.

To the Editor of The Times-Democrat:

Judge Robert S. Lovett, chairman of the Union Pacific railroad, in a statement in the New York Times, comes out squarely for President Wilson. Judge Lovett says "Woodrow Wilson has more real great achievements to his credit than most presidents who have preceded him. He has given the country business, peace and an open field for a fair fight."

E. F. Kearney, president of the Wabash railway system, at a recent meeting of the stockholders, said the European war was not the cause of present nation-wide prosperity. He unequivocally indorses the president's policies and will heartily support him.

President Underwood of the Erie railroad, enthusiastically praises the present administration. He says "It has given the country business stability."

Prof. Elliot, for more than 30 years, president of Harvard University, says congress and President Wilson have given the nation more useful and necessary laws since March 4, 1917, than was accomplished in two decades under former presidents.

The Business Men's Woodrow Wilson league has as members some of the greatest captains of industry in the country, merchants, and others of large affairs—men who care nothing for partisan politics, but are intensely interested in good government. Surely these men should have more influence with honest voters than the cheap politicians whose chief reliance for success is their facility to deceive the people.

## YENISEISK.

Yeniseisk takes its name and most of its prosperity from the river Yeniseisk on whose low bank it stands. It is a city, such as you find more than a few nowadays in Siberia, land of rivers.

There is little of the attractive or the inspiring about a first sight of Yeniseisk. A city of the plains is never as picturesque as a city of the mountains. Yeniseisk stands in the midst of flat gently rolling meadows, and there is apparently no good reason why the city should have been built just where it is instead of a few miles farther down or farther up. The pioneers of Yeniseisk no doubt decided that a city in that neighborhood was a necessity, and one spot about as good as another.

hicles drawn by three horses where the passenger sits on the floor—has pulled into the city. If you see that it is a place of many frame houses surrounded for most part by wide streets. The dominant note is one of space and freedom. There is no crowding. Yeniseisk has all

four doors to build and grow in, and she has taken generous parts of it for her homes and streets. There are no striking buildings, no monuments of architecture in the city. In fact, with the exception of the many churches, the scheme of building is somewhat drab and monotonous. But the atmosphere of the

town is not. It is alive with the ceaseless callings. Yeniseisk is a center, the capital of a region stretching back into the unknown in three directions. When you add the bread that the gods have decreed shall be particularly ripe with chance on the 15th of October, a month furnished and change. They are the catching of fish, the trapping of fur, and the hunting of gold. And for each of mantic possibilities.

Hunters report that the squirrel is not as numerous this year as last but few hundreds were able to reach the limit prescribed by the law in one day. Some sportsmen are advocating a closed law against this animal for a couple of days to give them a chance to increase in numbers.

On November 1 cottontails will be the mark of the hunter. The season against the rabbit is open from then until January 1. Sportsmen are awaiting with much anticipation the opening of the season as it is rumored that there is a plentiful supply this year.

GREATEST FORWARD STEP

Only two American presidents, Lincoln and Wilson, have understood or sympathized with the aspirations of labor. Lincoln's great action, however, affected only one race; the women's act and the child labor act are landmarks of labor history. ## PROFESSION OF HOME MAKING

SO MUCH is said nowadays of the need for regarding house-keeping and home-making as a profession, to be conducted in as businesslike a manner as any other profession, that we are prone to think this idea is a modern one—an outgrowth of our schools of domestic economy. As a matter of fact, however, experts in this field have been urging this point of view for many decades and their sage, far-seeing admonitions are just beginning to be accepted and acted upon. So long ago as 1871, Marion Halland, in a little book called "Common Sense in the Household," presented this idea of the professional attitude toward housework.

"If you have not what our Yankee grandmothers termed a 'faculty' for housework, yet are obliged, as is the case with an immense majority of American women, to conduct the affairs of a household, bills of fare included, there is the more reason for earnest application to your profession in this connection. My dear, John and the children, and the humble home, make your sphere for the present. Be sure you fill it—fill it before you seek one wider and higher. There is no better recipe between these covers than that . . .

"If the natural taste be dull lay to it more strength of purpose—resolution born of a just sense of the importance of the knowledge and dexterity you would acquire. I speak not now of the labors of the ordinary department alone; but, without naming the other duties which you and you only can perform, I do insist that upon method, skill, and economy in the kitchen depends so much of the well-being of the rest of the household, that it may safely be styled the foundation of housework."

"You must learn the rudiments of the art for yourself. Practice, and practice alone, will teach you certain essentials. The management of the oven, the requisite thickness of boiling custards, the right shade of brown upon bread and roasted meats—these and dozens of other details are hints which cannot be imparted by written or oral instructions. But, once learned, they are never forgotten, and henceforth you are mistress of yourself, though servants leave. Have faith in your own abilities. You will be a better cook for the training you have received at school and from books. Intelligent observation, just judgment, a faithful memory and orderly habits will tell you that you have a profession, as I said just now, and resolve to understand it in all its branches."

Without going outside my door, I can gain a knowledge of the world, and without looking out of my own window, I can see the roads which lead up to Heaven.—Lao-Tee

OF INTEREST to Lima friends of "Tommy" Thompson, is the following account of his engagement taken from the Cincinnati Times-Star. During Mr. Thompson's stay here he was employed at the Thompson garage on West Market street.

Announcement comes from Butte, Mont., of a very interesting engagement of a Butte girl, Miss Hazel Grace, to a popular young Cincinnati bachelor, Mr. Earl Francis Thompson, youngest son of Mr. and Mrs. Newcomb Thompson and a nephew of Mr. and Mrs. Charles McCullough and of Mr. and Mrs. L. F. Phillips. Miss Grace is very musical, as is also her fiance, who possesses a splendid tenor voice. She received her education in Philadelphia, residing there with her aunt and uncle the while and after her graduation was finished in Paris, France. She has made her home since then with another aunt and uncle in Butte, Mr. and Mrs. Charles Allensworth, who make the engagement announcement.

"Mr. Thompson, a Kenyon man, a member of the D. E. fraternity, having been graduated two years ago, his nickname "Tommy" being so universally taken up that he has carried it into the workaday world almost to the exclusion of his baptismal name. Mr. Thompson is a brother of Mr. Newcomb Thompson, Jr., and of Miss Ruth Thompson, popular members of the younger set, and whose dance in the last home for incurables' firmness were among the hits of that festival of dancing. Mr. Newcomb Thompson, Jr., is now with Troop C on the border. Mr. William Thompson and Mr. Ellis Van Zant Thompson of New York, are also brothers. Mr. Francis Thompson entered business in Lima after his graduation, and has many friends up through the state who will be interested in his engagement.

"The wedding will take place on November 25 and will be a church event. The honeymoon will be an extended trip through the northwest and afterward Mr. Thompson will bring his bride to a month's stay at the hotel here with his parents, who plan a reception in the bride during her stay. It is not yet decided just who of the family will go west for the wedding, but Miss Ruth Thompson has been arranged to go."

Church goes, lovers of the beautiful and those interested in things of an uplifting nature, will be given a rare treat tonight, in the beautiful moving pictures, to be shown at the First Congregational church. The Kalem film company took these pictures in Palestine and they are true to life of the Savior and events and places transpiring, as it is possible to make them.

Scenes showing the life of Christ from the manger to the cross, will be shown. The hour gives a spiritual blessing, for it is said to see the picture, is but to feel an hour of prayer. Parents are especially urged to bring their children. Only a small amount is charged.

The pictures are shown continuously from 7 to 10 o'clock tonight. During that time Otis McBride and Raymond S. Oliver will exemplify

the pictures with appropriate music on the pipe organ.

Miss Fallerne Hoover, of West Market street, who has spent several months with friends in Seymour, Ind., and Indianapolis, Ind., has returned to her home.

Laurel and Mrs. Louis Straus were honored Wednesday evening with a shower given by their congregation. Among those women who attended were Mrs. Rosenbaum, Mrs. Blatner, Mrs. Kleinberger, Mrs. Hyman, Mrs. Kryas, Mrs. Epstein, Mrs. Asher, Mrs. Trounstein, Mrs. N. L. Michael, Mrs. Theodore Michael, Mrs. Lowenstein, Mrs. Max Weikel, Mrs. A. Weikelbaum, Mrs. Ball, Mrs. Rosenstein, Mrs. Schwartz, Mrs. Bernstein, Mrs. Stein, Mrs. Rabbits, Mrs. Vassenthal, Mrs. Lich and Mrs. Jonas Vogelmutz.

Although it was definitely decided to bring here Mrs. Robert Morris, of Toledo, the Shakespeare club has announced no dates. Plans, however, were discussed yesterday at the meeting at the library. Mrs. E. C. Abrams gave an interesting paper on "Henry VIII," which was followed by a discussion of the same subject by Mrs. Winona Vincent Forer.

The Altruistic club meeting will be held tomorrow afternoon at the home of Mrs. W. B. McClaren instead of this afternoon as was announced.

Mrs. L. M. Coe returned to her home Wednesday after several weeks visit with relatives in Tiffin. She left yesterday for the winter at Wilkesburg, Pa.

K. W. B. club members, newly organized, were entertained yesterday afternoon at the home of Mrs. Russell Basinger. The club, which is made up of ten women, spent the afternoon in sewing and music. Mrs. Arthur Starkey and daughter Eleanor and Mrs. Louise Exley were the guests of the club. Refreshments were served by the hostess, after which the club adjourned to meet again in two weeks at the home of Mrs. Bert Green.

Misses Anna and Lillian Zerbst entertained about 30 members of the Cotta class of the St. Paul's Lutheran church at their home Wednesday evening. Halloween decorations were used throughout the rooms, in which games and music were enjoyed. Misses Emma Zerbst and Brenda Kelley assisted the hostesses in serving delicious refreshments.

Clontian club members will meet next Monday afternoon with Mrs. Bruce Darby of Ada. Members will leave Monday afternoon on the 142 train.

Most delightful and entertaining was the party given by Mrs. S. W. McFarland at her home, 206 South Blackfoot street, Wednesday afternoon. Thirty-six ladies were present, and the time was pleasantly spent in playing bridge, six tables being filled for the occasion. At the close of a number of interesting games, Mrs. Edwin Timmermeister, who had the highest score, was presented with the prize. The hostess then served a most elaborate four-course dinner. The dining room table supported a beautiful centerpiece of fernery and pink roses, while shaggy chrysanthemums were effectively used throughout the other rooms. The out-of-town guests were

 Scald 1 cup of milk, add 3 table-  
 spoons of grated chocolate or cocoa,  
 2 tablespoons of cornstarch, 1-2 cup  
 sugar mixed with a little cold milk,  
 and cook until thick. Add 1-8 tea-  
 spoon of salt and the yolks of 2  
 eggs well beaten, and cook 5 min-  
 utes. Flavor with 1 teaspoon of van-  
 illa and beat in the whites of 2  
 eggs whipped stiff. Pour into a pie  
 crust shell, and bake in a moderate  
 oven until firm.

**The Thanksgiving Berry.**  
 The cranberry keeps better than  
 any other fruit or berry, because it  
 has in its own composition an acid  
 that is a preservative. Pick fresh,  
 good berries over, put them in a  
 glass jar and cover to overflowing  
 with cold water, cover, seal tightly  
 and set away in a cold place, but  
 where the water will not freeze, and  
 the berries will keep all winter. If  
 berries are reasonable in the fall,  
 it is best to put some away in jars  
 for use through the winter, advises  
 an old cooking magazine.

The cranberry is a great absorp-  
 tion of sugar, for to make it even  
 eatable it must have half its meas-  
 ure of sugar. For plain sauce, it  
 is customary to allow by measure-  
 ment one-half as much sugar and  
 one-quarter as much water as of  
 berries. If the sauce is liked very  
 rich, allow three quarters as much  
 sugar instead of one-half, but keep  
 the proportion of water at one-quar-  
 ter.

**Cranberry Pie**—Chop one cup of  
 cranberries fine and add one cup of  
 sugar. Put two level tablespoons  
 of cornstarch in a cup, and a little  
 cold water and stir until smooth,  
 then fill the cup with boiling water.  
 Mix with the cranberries, add a level  
 tablespoon of butter and a pinch of  
 salt. Line a plate with paste, fill  
 with the cranberries, then cover with  
 narrow strips of paste laid in lattice  
 fashion and bake.

**Cranberry Sherbet**—Measure two  
 cups of water, two cups of cranberry  
 syrup and two of sugar. Add the  
 juice of two lemons and freeze to  
 a mush. Stir in the stiffly beaten  
 whites of two eggs, freeze a little  
 more and serve in sherbet cups.

**Cranberry Sirup**—While cranber-  
 ries are least expensive, make some  
 sirup for coloring desserts and for  
 sherbet. Put six cups of cranberries  
 with five cups of water and cook un-  
 til the berries become a soft mush.  
 Drain through a bag made of fine  
 doubled cheese cloth, and measure  
 the juice. To one cup of sugar allow  
 two cups of cranberry juice. Put the  
 juice into a preserving kettle, cook  
 five minutes and seal in bottles.

**Cranberry Jelly**—Fold the jelly  
 in after-dinner cups. Put four cups  
 of cranberries into a saucepan with  
 one cup of water and stew until soft.  
 Press through a wire strainer, when  
 there will be about two cups of pulp  
 and juice. Add an equal amount of  
 sugar and stir until the sugar is dis-  
 solved. Let boil up, skim and turn  
 into little cups and set away to be-  
 come firm.

## THE FAUROT'S PICTURES.

Quite in keeping with the Faurot's  
 other fine photoplays features of the  
 week is "The Pretenders," the Metro  
 picture now at that theatre with  
 Emmy Wehlen in the stellar role. It  
 is delightfully acted, the story is  
 splendidly worked out by those emi-  
 nent authors, Channing Pollock and  
 Renold Wolf, and the settings and  
 photography leave nothing to be de-  
 sired. Miss Wehlen, whose artistic  
 methods and beauty would carry  
 most any picture to success, is given  
 fine opportunity for effective work  
 and she is a delight from the start  
 of the picture to the finish. In a  
 cast that is just about perfect Paul  
 Gordon, Lean Hume, Charles Eld-  
 ridge and Edwin Holt are outstand-  
 ing figures. "The Pretenders" is  
 accompanied by Paramount Picto-  
 graph, which are of unusual interest  
 this week, and a mighty clever com-  
 edy, "Papa by Proxy," in which Max  
 Figman and Lolita Robertson are  
 delightful. Last times tonight.

# BENSON SAYS WILSON WILL BE RE-ELECTED

Socialist Candidate Declares Hughes Has Solid Millionaire Vote.

SAN FRANCISCO, Oct. 20.—After completing a transcontinental campaign tour and feeling out public sentiment from coast to coast, Allen L. Benson, socialist candidate for president, predicts the re-election of President Wilson.  
On reaching San Francisco last week he was interviewed by the Bulletin, which quotes him as follows:  
"The tendencies of the voters of this country, as I have observed them in a speaking tour of 40 days, all incline toward the re-election of Mr. Wilson. If Mr. Hughes is permitted to talk long enough he will do for Mrs. Wilson all that the president can't do for himself. Mr. Hughes is trying to get the solid millionaire vote and I think he will succeed."  
"Mr. Hughes was always a handy man for the Rockefeller. He went to church with them and taught a

Bible class there. When he became governor of New York he vetoed the two-cent fare bill, which was so bitterly opposed by the Rockefeller railroads and tried to prevent the taxation of the income tax amendment.

## WHEAT MARKET WILD ON FIVE CENT JUMPS

CHICAGO, Oct. 20.—An advance of five cents in December and 4 1/2 cents in May today featured the wildest corn market in years here.

A break of 2 1/2 followed. The trading was too big to follow. Wet weather and a scarcity of offerings of cash corn were factors.

## October Investments

The seven percent cumulative preferred stocks we recommend for the investment of October funds are seasoned securities with unbroken dividend records. They represent the healthy growth of established industries, not the future hopes or expectations of new enterprises, hastily launched at the crest of national prosperity.

At current prices, these preferred stocks yield 6 1/4 to 7%, without deduction for taxes in Ohio, or for the nominal federal income tax.

If conservatism and due regard for future safety dictate the commitment of your funds, study our October offerings in detail. We will be glad to send descriptive booklets with financial statements free on application, together with our sixteen-page booklet "The Selection of Investments" which explains the principles on which our success during the past 12 years has been founded.

ST. CLAIRSVILLE—Carter Thornburg, son of republican Prosecuting Attorney George Thornburg, who is a candidate for re-election, is willing to do anything to help his father in his candidacy. Returning home last night the father found his son raking the leaves from the lawn of James F. Ryan, Thornburg's democratic neighbor. When asked why he raked Ryan's lawn instead of his own, the boy replied:

"I'm electroneering for you dad."

## TAKE SALTS TO FLUSH KIDNEYS

Eat Less Meat if You Feel Backachy or Have Bladder Trouble.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must believe them like you relieve your bowels; removing all the acids, waste and poison, also you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste, get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

# ALL ACTS FEATURES AT ORPHEUM FOR THE NEXT TWO DAYS

Jap Juggler, Comedy Play  
let, Singing and Danc-  
ing on Bill.

The Orpheum for the last half of this week is extraordinary in that all the acts are features and it is hard to single out any particular headliner. Little Al. Night opened the bill with a Japanese novelty act, he balanced a carafe and six wine glasses on one finger, he juggled, he walked the tight rope and he balanced himself on a chair on the tight rope with the skill and ease that only a Japanese possesses.

"All Wrong," a comedy feature, is a comedy with vine Hubby comes home from the Night Owls club at 4 a. m., secure in his belief that his wife is in bed. At 4.05 a. m. wife arrives home from the Girls Glee Club singing, naturally, that hubby has been home for hours. Then things begin to happen and all sorts of complications arise until everything is happily straightened out in the end. It is a laugh from start to finish.

Stross and Becker in a musical act are very good. Stross plays the cornet fluently, being able to play the highest note ever produced on a cornet. He is also the champion note-holder, holding one note for two minutes. Billsbury and Robinson, two pretty girls, are good singers and clever dancers. Their comedy is also new.

The 1916 Review of Reviews is a fitting close for a good bill. Pretty girls, pretty costumes, good singing and dancing altogether make an attractive picture. The March of the Nations was especially effective, each nation was represented and when reversed all became American flags and the chorus joined in singing America. A crowded house greeted each performance last evening.

Neglected colds get worse. Instead of better. A stuffed head, a tight chest must be relieved at once. Dr. Bell's Pine-Tar-Honey is Nature's remedy. Honey and glycerine heal the irritated membrane, antiseptic tar loosens the phlegm, you breathe easier and your cold is broken up. Pleasant to take, Dr. Bell's Pine-Tar-Honey is an ideal remedy for children as well as grown-ups. At your Druggist, 25c.

# BUFFALO BILL WILL VOTE FOR WILSON

CHEYENNE, Wyo., Oct. 20.—The greatest rough rider of them all, "Buffalo Bill" himself, has come out for President Wilson's re-election. Colonel Cody is a great admirer of that other colonel and rougher, but he cannot unite with Theodore Roosevelt in endorsing Mr. Hughes. "Buffalo Bill" has always been a republican until a few years ago, when he lined up with the progressives. Now he stands this year shown by a characteristic telegram sent by him from Kingston, North Carolina, to Frank Hoar, secretary of state of Wyoming. Colonel Cody's announcement reads:

"Hughes can't ride Woodrow. He is milking leather already and will be disqualified. 'Old Cod'."

Colonel Cody has never been a democrat before, but he knows a real president.

## PRETZEL SELLER KILLED.

CINCINNATI, Oct. 19.—West End Billy Snyder, the head keeper of the Central Park zoo, N. Y. city, is a pretzel seller. Snyder, who is 60, is a unique figure. Everyone knows Old Man Krimmman, who had Billy Snyder, especially children. They have been supporting the Snyder family for years. Snyder came to see his pets from many districts for years. Snyder is a pretzel seller. Snyder is a pretzel seller. Snyder is a pretzel seller.

DALTON, Ga., W. D. King has solved the rooster crowing problem. There was Little Tip, quite a famous rooster, who crowed at 6 o'clock every morning under his window. King had more narrow escapes than would fill a volume to relate. Snyder has had more narrow escapes than would fill a volume to relate. Snyder has had more narrow escapes than would fill a volume to relate.
